PROFESSIONAL PROFILE

Honest, hard-working web developer in training, currently an intern at LC Studio and a software development student at Life Choices Academy. Skilled at working out the requirements of each task and delivering results the team can rely on. A friendly team player who takes instruction well and works equally well independently, with hands-on experience building full-stack web applications in a team. Eager to keep learning and to take on new challenges.

SKILLS

Soft Skills	Hard Skills
Active listening	HTML, CSS and JavaScript
Collaboration	Vue.js
Conflict resolution	Node.js and Express (REST APIs)
Critical thinking	MySQL database design
Management	Git and GitHub
Patience	Microsoft Word, Excel, Access, PowerPoint, Notepad++

WORK EXPERIENCE

Customer Sales Assistant | Woolworths
April 2024 – March 2026

- Served customers in a fast-paced retail environment, answering queries and helping them find what they needed
- Handled sales, stock and merchandising tasks to keep the store presentable and well stocked
- Worked as part of a team to keep day-to-day store operations running smoothly

Intern | LC Studio
2026 – Present

- Gaining practical, real-world experience in a working studio environment alongside experienced professionals
- Applying the web development skills built at Life Choices Academy to real tasks and deliverables
- Collaborating with the team, taking feedback on board and growing in speed and quality of work

LIFE CHOICES ACADEMY

Software Development Student | Life Choices Academy
2026 – Present

- Progressed through the programme's modules, building real projects in teams using Agile/Scrum practices
- **HR Management System:** built the HR section of a team web app (dashboard, employees, payroll, performance and login) and developed the Node.js/Express and MySQL back-end with JWT login, payroll and performance APIs; currently deploying it live
- **RentoSphere:** team-built rental marketplace connecting product owners with people who need items temporarily; completed the front-end and worked on the Node.js and MySQL back-end (users, listings and bookings)
- **Web Scraping Analytics Dashboard:** built the Vue 3 front-end and merged it with a teammate's Flask back-end as part of Team Alpha
- **Personal portfolio:** designed and built a portfolio site (Vue.js, plus a WordPress and Elementor version) at github.com/MattLCA/Personal-Portfolio
